¹ Applicants with a degree from outside the UK should refer to the [equivalency table \(PDF, 1MB\)](#) to see if their degree is likely to attract a bursary, or should consult their chosen training provider.

² Trainees in maths, physics, chemistry and computing with a 2:1 or above are able to apply for a teacher training scholarship with the appropriate professional body.

³ Trainee teachers in maths and physics, and on primary maths courses, with a relevant degree and at least a B at A level in maths or physics (or equivalent) will be eligible for a bursary of £9,000. Trainees will not be entitled to this bursary if they are also entitled to a higher bursary based on degree class.

⁴ Bursaries are available to train to teach modern foreign languages, community languages and ancient languages including Latin and Ancient Greek.

⁵ Bursaries are available to trainees on either primary maths specialist courses or primary general (with mathematics) courses. Trainees on other primary courses will be eligible for the standard primary bursary.

Bursary payments are processed automatically for eligible candidates by their chosen teacher training provider. You will receive more information on the arrangements and how this is distributed prior to the start of your course.
